**What exactly a  
Biosphere Reserve  
consists of?  
From a Mediterranean  
Perspective**

- 5** MODULES
- 1** INSPIRING TALK
- 28** LECTURES
- 14** ORGANISATIONS
- 22** TRAINERS
- 1** MOOC

Co-funded by the  
Erasmus+ Programme  
of the European Union

# OVERVIEW

The objective of the Edu-BioMed course is to answer to this key question from a Mediterranean perspective. The course is developed under the framework of the project, whose main objective is to promote education and applied research in Mediterranean Biosphere Reserves.

Throughout the course, participants will learn about the case of Biosphere Reserves, special protected areas promoted under the auspices of the Man and Biosphere Program of UNESCO. Teachers are professionals in the field of environmental protection and education: university professors and researchers, NGOs representatives and Biosphere Reserve managers.

- **University educators** (professors, lecturers) & **Students** from several discipline, from environmental studies to Mediterranean geography, from sustainable tourism to natural sciences, etc.;
- **Researchers and professionals** in the field of environmental protection;
- **Representatives and Biosphere Reserve managers, staff and practitioners;**
- **Citizens, associations and the wider public** with an interest in biodiversity and natural heritage protection;
- **Local communities** living and working in the Biosphere Reserves;
- **Decision-makers** at national and regional levels.

# MODULES

**M1 - The role of the biosphere in an era of global change**

**M2 - What a Biosphere Reserve is (and is not!)**

**M3 - How Biosphere Reserves contribute to understanding and managing changes and interactions between social and ecological systems**

**M4 - Case studies from the ground presented by Biosphere Reserve managers**

**M5 - Conceptual and methodological tools relevant in the field of conservation management**
